Item 8.01 Other Events.

On March 4, 2020, the U.S. Securities and Exchange Commission (the “SEC”) issued an order under Section 36 (Release No. 34-88318) of the Securities Exchange Act of 1934, as amended (“Exchange Act”), granting exemptions from specified provisions of the Exchange Act and certain rules thereunder. On March 25, 2020, the order was modified and superseded by a new SEC order (Release No. 34-88465), which provides conditional relief to public companies that are unable to timely comply with their filing obligations as a result of the novel coronavirus (“COVID-19”) outbreak (the “SEC Order”). The SEC Order provides that a registrant subject to the reporting requirements of Exchange Act Section 13(a) or 15(d), and any person required to make any filings with respect to such registrant, is exempt from any requirement to file or furnish materials with the Commission under Exchange Act Sections 13(a), 13(f), 13(g), 14(a), 14(c), 14(f), 15(d) and Regulations 13A, Regulation 13D-G (except for those provisions mandating the filing of Schedule 13D or amendments to Schedule 13D), 14A, 14C and 15D, and Exchange Act Rules 13f-1, and 14f-1, as applicable, if certain conditions are satisfied.

Predictive Oncology, Inc. (the “Company”) will be relying on the SEC Order to delay the filing of its Quarterly Report on Form 10-Q for the three months ended March 31, 2020 (the “Report”) due to the circumstances related to COVID-19. In particular, COVID-19 has caused severe disruptions in travel and transportation and limited access to the Company’s facilities resulting in limited support from its staff. This has, in turn, delayed the Company’s ability to complete its quarterly review and prepare the Report. Notwithstanding the foregoing, the Company expects to file the Report no later than June 29, 2020 (which is 45 days from the Report’s original filing deadline of May 15, 2020).

In light of the current COVID-19 pandemic, the Company will be including the following Risk Factor in the Report:

Our business and operations have been and will likely continue to be materially and adversely affected by the COVID-19 pandemic.

In March 2020, the World Health Organization declared the recent spread of COVID-19 to be a global pandemic. In response to the crisis, emergency measures have been imposed by governments worldwide, including mandatory social distancing and the shutdown of non-essential businesses. These measures have adversely impacted the global economy, disrupted global supply chains and created significant volatility and disruption of financial markets. While it is not currently possible to estimate the duration and severity of the COVID-19 pandemic or the adverse economic impact resulting therefrom, our business and operations have been and will likely continue to be materially and adversely affected. For example, our contract manufacturer for the STREAMWAY® System has been forced to change locations, thereby delaying our order fulfillment for parts. We have also reduced on-site staff at several of our facilities, resulting in delayed production, less efficiency, and our sales staff is unable to visit with hospital administrators who are our customers and potential customers. In addition, COVID-19 has impacted the Company’s capital and financial resources, including our overall liquidity position and outlook. For instance, our accounts receivable have slowed while our suppliers continue to ask for pre-delivery deposits. Although we have received a Paycheck Protection Loan pursuant to the CARES Act which will help fund immediate payroll costs, we may not be able to access necessary additional capital given the current condition of the financial markets. Thus, if COVID-19 continues to spread or the response to contain the virus is unsuccessful, we may continue to experience a material adverse effect on our business, financial condition, results of operations, cash flows and stock price.
